Declaration (including compulsory Food Chain Information)

- All prime lambs consigned to the VION Group are under 12mths of age, (i.e. No incisor teeth have erupted through the gum). Any lambs that are slaughtered and are classified as over 12mths will be paid at realisation.
- All lambs have been produced in accordance with the ABM standard, and have resided on farm assured holdings for no less than the last sixty days. (Delete if sending non-farm assured lambs to Welsh Country Foods)
- All lambs supplied are identified by tagging and comply with current legislation and have been fully identifiable throughout their life.
- All animals must meet the VION Group clean livestock policy, and I understand that any dirty animals will be clipped at my expense.
- All hauliers must be ABM approved or part of the Farm Assured Haulier Scheme.
- I confirm these animals have been predominantly grass fed, and have been fasted a minimum of 3 hours prior to loading.
- *The holding is not under movement restrictions for any animal disease or public health reason (excluding a 6-day standstill).*
- *Withdrawal periods have been observed for all veterinary medicines and other treatments administered to the animals while in my ownership and previous ownership(s).*
- *To the best of my knowledge the animals are not suffering from any disease or condition that might affect the safety of meat derived from them. No analysis of samples taken from the animals or other animals on the holding has shown that the animals have been exposed to any disease or condition that may affect the safety of meat, or to substances likely to result in residues in meat.*
